

# SCIENCE ON SATURDAYS AT YALE

Hands-on Demonstrations 10 am–11 am

Lecture 11 am–noon

Sterling Chemistry Laboratory

225 Prospect Street · New Haven

## FUN SCIENCE LECTURES FOR “KIDS” OF ALL AGES

February 1

**NILAY HAZARI (CHEMISTRY)**

**Making Valuable Materials from the Greenhouse Gas Carbon Dioxide**

March 1

**REINA MARUYAMA (PHYSICS)**

**Neutrino, Dark Matter, and The South Pole**

April 5

**DAVID SCHATZ (IMMUNOBIOLOGY)**

**Germ Busters! The Genetics behind our Amazing Immune System (or why we aren't sick all the time).**

**Admission is free and open to the public**

Demonstrations presented by /Synapse/ Yale Scientific Magazine

Hosted by Kurt Zilm

Located on Science Hill. Sterling Chemistry is the building on the left of the driveway at 225 Prospect. Proceed into the main entrance and up the main staircase. Parking will be available on the street along Prospect, at the Yale Whale Ice Rink, and in Lot 16 at the corner of Whitney & Humphrey. More parking information is available at [www.yale.edu/scienceoutreach](http://www.yale.edu/scienceoutreach)
